

Arbor Landing Community –

Over the last two weeks, several incidents have occurred in our community that we need to be aware of. We have had vehicles that were vandalized, and items taken from the cars. All cars involved were unlocked. No report was given to the Chesterfield Police at the time of the vandalism by any of the homeowners.

According to the Police - Even though the vehicles were unlocked, the owner should have called and if it happens again call 804-748-1269 and report the incident. A forensic team will come and attempt to get fingerprints or other evidence that may help stop this ring. There has been an abundance of these type- break ins in the County as well as surrounding areas;

- (1) Several groups of teenagers have been observed roaming the streets and walking between houses in the evenings. Normally, they are three teenagers (2 boys and 1 girl) smoking marijuana. At times, earlier in the evening, a few have been observed with a skateboard, but not using the skateboard. After walking the streets, they have been seen leaving the area via the pedestrian paths.

According to the Police - When unidentified groups of teenagers or young adults are seen in your area, smoking marijuana or using drugs and/or appear to be going into areas (between houses, back yards, etc.) the police should be notified immediately by contacting (804)748-1269 or (804)748-1251. Call 911 if violence or property destruction is observed or there appears to be impending danger.

- (2) There have been reports of homeowners shooting squirrels and birds from the back of their homes and toward the lake area.

According to the Police - If a homeowner observes someone shooting squirrels or birds, they are to report that activity to the authorities immediately. Call (804) 748-1251 or (804) 748-1269.

- (3) There have been reports of walkers with limited visibility while walking in the Community. Now that Day Light Savings time is upon us; it is extremely important that walkers wear reflective clothing and shoes. Please keep this in mind for the drivers to see you!!
